

The Power of Automation With a Human Touch

Your virtual sales assistant reaches out to all your leads or prospects, determines which ones are ready to buy, and alerts a sales rep – sharing what it has learned from the lead, such as the best number use, best time to call, and purchase requirements. The two-way conversations are automated and much more personalized than autoresponders.

Just Feed the Leads

Find the hottest leads

Discover your most qualified sales opportunities from Internet leads and prospecting

Less time prospecting

Sales reps can focus on selling vehicles, not trying to make first contact with incoming leads

Engage every lead

Your virtual sales assistant reaches out to every lead 24x7x365 and never calls in sick

Nurture leads

Automation with a human touch helps you to deepen the connection with potential buyers and refresh stale leads

Improve lead ROI

Find out which lead sources produce the best results and sell inventory

Sales insights

Gain unique insights into the performance of your sales team

Your virtual sales assistant engage your customers and respond as if they were a real live person... and get results!
