

**Automated Video Marketing on Your Website, YouTube, and Facebook**

Input your trucks into SOARR with at least four photos and we will convert the photos and specifications into an amazing video that has voice over, spec call outs, and dealership information embedded in the video. Once the video has been produced, it will be uploaded automatically to YouTube, Facebook and (of course) your website!

**Visitors who viewed product videos are 85% more likely to buy than visitors who do not.**

YouTube is now the second largest search engine in the world. Google (which is the largest) owns YouTube.

In terms of Search Engine Optimization, getting your inventory on YouTube is an absolute must.

**We Do The Talking About Your Inventory For You.**

All of our videos feature our **Human Voiceover**. Drawing from over one thousand prerecorded human voice scripts, our videos include automatically generated narration for make, model, year, mileage, features-and a host of vehicle options. We do the talking about your inventory for you.
